DOSING INSTRUCTIONS

Mixing Guide

- Commonly mixed with 2ml bacteriostatic water
- Add BAC water slowly down the side of the vial
- Swirl gently — do not shake aggressively

Timing

- Once daily in the morning

Dosing

- Often used in small regular doses of
 - Days 1-2 - 2.5 mg once daily - 15units (0.15ml)
 - Days 3+ - 5 mg once daily - 30units (0.30ml)
 - Split option - 2.5 mg twice daily - 15units each (0.15ml each)

Potential Benefits

- Supports healthy metabolic activity
- May assist in body composition goals
- Supports mitochondrial function
- May promote cellular energy production

Storage

- Store refrigerated at 2-8°C
- Protect from sunlight and heat
- Avoid repeated warming and cooling

DISCLAIMER
